

ENTERPRISE RISK REGISTER

Section 1 – Enterprise Risk Management Framework

1.1 Purpose

Establish the enterprise risk management framework governing identification, assessment, treatment, monitoring, reporting, and oversight of risks affecting TODP.

1.2 Objectives

- Maintain enterprise resilience.
- Reduce business uncertainty.
- Improve decision quality.
- Support governance oversight.
- Protect strategic objectives.

1.3 Scope

Applies to:

- Strategic risks
- Operational risks
- Technology risks
- Governance risks
- Compliance risks
- Financial risks
- Customer risks

1.4 Risk Management Principles

- Risk Transparency
- Accountability
- Continuous Monitoring
- Evidence-Based Assessment
- Proactive Mitigation

1.5 Risk Governance Structure

Product Governance Board

Compliance & Governance Committee

AI Governance Committee

Executive Leadership Team

Operational Risk Owners

1.6 Risk Lifecycle

Risk Identification

→ Risk Assessment

→ Risk Classification

→ Risk Treatment

→ Risk Monitoring

→ Risk Reporting

→ Risk Closure

1.7 Risk Categories

Category A

Strategic Risks

Category B

Operational Risks

Category C

Technology Risks

Category D

Compliance Risks

Category E

Financial Risks

Category F

Third-Party Risks

1.8 Risk Assessment Criteria

Assess:

- Likelihood
- Impact
- Velocity
- Detectability
- Business Exposure

1.9 Risk Rating Matrix

Critical

High

Medium

Low

1.10 Risk Reporting Requirements

Monthly

Enterprise Risk Review

Quarterly

Executive Risk Assessment

Annually

Enterprise Risk Effectiveness Review

1.11 Key Metrics

- Total Open Risks
- High-Risk Exposure
- Risk Closure Rate
- Risk Mitigation Effectiveness

1.12 Audit Requirements

Maintain:

- Risk Registers
- Treatment Plans
- Risk Reviews
- Escalation Records

1.13 Ownership

Primary Owner:

Chief Compliance Officer

Review Authority:

Compliance & Governance Committee

Approval Authority:

Product Governance Board

1.14 Traceability

RTM References:

- RISK-001
- RISK-002
- GOV-001

1.15 Section Summary

This section establishes the enterprise risk management framework, governance structure, assessment methodology, reporting requirements, and accountability model supporting TODP risk management.

ENTERPRISE RISK REGISTER

Section 2 – Strategic Risk Register

2.1 Purpose

Define strategic risks that may impact long-term growth, market position, business objectives, product adoption, and enterprise sustainability.

2.2 Risk Category

Strategic Risk

2.3 Risk ID

SR-001

Risk Name

Market Adoption Risk

Description

Failure to achieve expected enterprise adoption levels may reduce growth objectives and revenue realization.

Likelihood

Medium

Impact

High

Risk Rating

High

Mitigation Actions

- Customer validation programs
- Product-market fit reviews
- Strategic roadmap alignment
- Adoption analytics monitoring

Risk Owner

Chief Product Officer

Risk ID

SR-002

Risk Name

Competitive Displacement Risk

Description

Competitors may introduce similar governance-focused platforms reducing TODP differentiation.

Likelihood

Medium

Impact

High

Risk Rating

High

Mitigation Actions

- Continuous innovation
- Governance leadership positioning
- Customer engagement programs
- Product differentiation investments

Risk Owner

Chief Executive Officer

Risk ID

SR-003

Risk Name

Strategic Execution Risk

Description

Failure to execute strategic initiatives may delay business objectives.

Likelihood

Medium

Impact

High

Risk Rating

High

Mitigation Actions

- Portfolio governance
- Executive reviews
- KPI monitoring
- Resource planning

Risk Owner

Executive Leadership Team

2.4 Monitoring Requirements

Quarterly

Strategic Risk Review

2.5 Metrics

- Strategic Goal Achievement Rate
- Product Adoption Growth
- Strategic Initiative Success Rate

2.6 Audit Requirements

Maintain:

- Strategic Reviews
- Portfolio Assessments
- Risk Reports

2.7 Traceability

RTM References:

- SR-001
- SR-002
- STRAT-001

2.8 Section Summary

This section documents strategic risks, mitigation plans, ownership assignments, monitoring requirements, and governance controls supporting TODP strategic objectives.

ENTERPRISE RISK REGISTER

Section 3 – Product & Delivery Risk Register

3.1 Purpose

Define risks associated with product planning, product delivery, roadmap execution, release activities, and lifecycle management.

3.2 Risk Category

Product & Delivery Risk

3.3 Risk ID

PD-001

Risk Name

Roadmap Delivery Risk

Description

Failure to deliver roadmap commitments may impact customer confidence and strategic goals.

Likelihood

Medium

Impact

High

Risk Rating

High

Mitigation Actions

- Delivery governance
- Portfolio reviews
- Resource forecasting

- Dependency management

Risk Owner

Chief Product Officer

Risk ID

PD-002

Risk Name

Release Failure Risk

Description

Unsuccessful releases may impact service reliability and customer trust.

Likelihood

Medium

Impact

High

Risk Rating

High

Mitigation Actions

- Release governance
- Testing controls
- Deployment validation
- Rollback planning

Risk Owner

Head of Product Delivery

Risk ID

PD-003

Risk Name

Requirements Traceability Risk

Description

Incomplete traceability may reduce governance visibility and audit readiness.

Likelihood

Low

Impact

High

Risk Rating

Medium

Mitigation Actions

- RTM governance
- Traceability reviews
- Requirement validation
- Audit assessments

Risk Owner

Head of Product Operations

3.4 Monitoring Requirements

Monthly

Product Risk Review

3.5 Metrics

- Release Success Rate
- Roadmap Delivery Rate
- Traceability Coverage

3.6 Audit Requirements

Maintain:

- Delivery Reviews
- Release Assessments
- Traceability Reports

3.7 Traceability

RTM References:

- PD-001
- PD-002
- RTM-001

3.8 Section Summary

This section documents product and delivery risks, mitigation strategies, ownership assignments, monitoring requirements, and governance controls supporting TODP product execution.

ENTERPRISE RISK REGISTER

Section 4 – Technology & Architecture Risk Register

4.1 Purpose

Define risks associated with platform architecture, infrastructure, scalability, reliability, technical debt, and technology lifecycle management across TODP.

4.2 Risk Category

Technology & Architecture Risk

4.3 Risk ID

TA-001

Risk Name

Platform Scalability Risk

Description

Growth in customers, workloads, or data volumes may exceed platform scalability assumptions, causing degraded performance.

Likelihood

Medium

Impact

High

Risk Rating

High

Mitigation Actions

- Capacity planning
- Performance testing
- Horizontal scaling architecture
- Infrastructure monitoring

Risk Owner

Chief Technology Officer

Risk ID

TA-002

Risk Name

Architecture Deviation Risk

Description

Uncontrolled architectural changes may introduce instability, complexity, and governance challenges.

Likelihood

Medium

Impact

High

Risk Rating

High

Mitigation Actions

- ADR governance
- Architecture review board oversight

- Technical design reviews
- Architecture compliance assessments

Risk Owner

Chief Technology Officer

Risk ID

TA-003

Risk Name

Technical Debt Accumulation Risk

Description

Excessive technical debt may reduce delivery velocity and increase operational costs.

Likelihood

High

Impact

Medium

Risk Rating

High

Mitigation Actions

- Technical debt backlog
- Quarterly architecture reviews
- Refactoring initiatives
- Engineering governance

Risk Owner

Head of Engineering

Risk ID

TA-004

Risk Name

Infrastructure Failure Risk

Description

Critical infrastructure failures may disrupt customer access and platform operations.

Likelihood

Low

Impact

Critical

Risk Rating

High

Mitigation Actions

- High availability architecture
- Backup strategies
- Disaster recovery testing
- Infrastructure redundancy

Risk Owner

Platform Engineering Manager

4.4 Monitoring Requirements

Monthly

Technology Risk Review

Quarterly

Architecture Risk Assessment

4.5 Metrics

- Platform Availability
- Scalability Utilization Rate
- Technical Debt Index
- Infrastructure Incident Volume

4.6 Audit Requirements

Maintain:

- Architecture Reviews
- Capacity Reports
- Technical Debt Registers
- Infrastructure Assessments

4.7 Traceability

RTM References:

- TA-001
- TA-002
- SAD-001
- ADR-001

4.8 Section Summary

This section documents technology and architecture risks, mitigation controls, monitoring requirements, ownership responsibilities, and governance mechanisms supporting TODP platform sustainability.

ENTERPRISE RISK REGISTER

Section 5 – Security Risk Register

5.1 Purpose

Define enterprise security risks impacting confidentiality, integrity, availability, access management, monitoring capabilities, and overall security posture.

5.2 Risk Category

Security Risk

5.3 Risk ID

SEC-001

Risk Name

Unauthorized Access Risk

Description

Unauthorized access to critical systems or information assets may result in data exposure or operational disruption.

Likelihood

Medium

Impact

Critical

Risk Rating

Critical

Mitigation Actions

- Multi-factor authentication

- Least privilege access
- Access reviews
- Security monitoring

Risk Owner

Chief Information Security Officer

Risk ID

SEC-002

Risk Name

Credential Compromise Risk

Description

Compromised credentials may enable unauthorized actions affecting platform operations.

Likelihood

Medium

Impact

High

Risk Rating

High

Mitigation Actions

- MFA enforcement
- Credential rotation
- Security awareness training
- Privileged access management

Risk Owner

Security Operations Manager

Risk ID

SEC-003

Risk Name

Vulnerability Exploitation Risk

Description

Unpatched vulnerabilities may be exploited to compromise systems or services.

Likelihood

Medium

Impact

High

Risk Rating

High

Mitigation Actions

- Vulnerability scanning
- Patch management
- Security reviews
- Penetration testing

Risk Owner

Security Engineering Lead

Risk ID

SEC-004

Risk Name

Security Monitoring Failure Risk

Description

Insufficient monitoring may delay identification of security incidents.

Likelihood

Low

Impact

High

Risk Rating

Medium

Mitigation Actions

- Centralized monitoring
- Alert validation
- Security operations reviews
- Incident response testing

Risk Owner

Security Operations Manager

5.4 Monitoring Requirements

Daily

Security Monitoring

Monthly

Security Risk Review

Quarterly

Security Posture Assessment

5.5 Metrics

- Open Vulnerabilities
- Security Incident Volume
- Mean Time to Detect
- Mean Time to Respond

5.6 Audit Requirements

Maintain:

- Vulnerability Reports
- Security Reviews
- Incident Records
- Access Reviews

5.7 Traceability

RTM References:

- SEC-001
- SEC-002
- SECARCH-001
- SECARCH-002

5.8 Section Summary

This section documents enterprise security risks, mitigation activities, monitoring obligations, ownership assignments, and governance controls supporting TODP security assurance.

ENTERPRISE RISK REGISTER

Section 6 – Data Governance & Information Risk Register

6.1 Purpose

Define risks associated with information governance, data quality, data protection, retention management, ownership accountability, and lifecycle governance.

6.2 Risk Category

Data Governance Risk

6.3 Risk ID

DG-001

Risk Name

Data Quality Degradation Risk

Description

Poor data quality may negatively affect recommendation accuracy, governance decisions, and reporting integrity.

Likelihood

Medium

Impact

High

Risk Rating

High

Mitigation Actions

- Data quality monitoring
- Ownership accountability
- Data stewardship reviews
- Quality assessments

Risk Owner

Head of Data Governance

Risk ID

DG-002

Risk Name

Data Classification Failure Risk

Description

Incorrect classification of information assets may result in inappropriate handling or protection.

Likelihood

Medium

Impact

High

Risk Rating

High

Mitigation Actions

- Classification governance
- Periodic reviews
- Training programs

- Compliance assessments

Risk Owner

Data Governance Manager

Risk ID

DG-003

Risk Name

Data Retention Non-Compliance Risk

Description

Failure to enforce retention schedules may increase regulatory and operational risk.

Likelihood

Low

Impact

High

Risk Rating

Medium

Mitigation Actions

- Retention automation
- Governance reviews
- Disposal validation
- Compliance monitoring

Risk Owner

Records Management Lead

Risk ID

DG-004

Risk Name

Data Integrity Risk

Description

Unauthorized or accidental modification of information assets may reduce trustworthiness and auditability.

Likelihood

Low

Impact

Critical

Risk Rating

High

Mitigation Actions

- Integrity controls
- Access governance
- Audit logging
- Backup validation

Risk Owner

Head of Data Governance

6.4 Monitoring Requirements

Monthly

Data Governance Review

Quarterly

Data Quality Assessment

6.5 Metrics

- Data Quality Score
- Data Governance Compliance Rate
- Data Integrity Success Rate
- Retention Compliance Rate

6.6 Audit Requirements

Maintain:

- Data Inventories
- Classification Registers
- Retention Reports
- Quality Assessments

6.7 Traceability

RTM References:

- DG-001
- DG-002
- DATA-001
- DGOV-001

6.8 Section Summary

This section documents data governance risks, mitigation strategies, ownership assignments, monitoring requirements, and governance controls supporting TODP information stewardship.

ENTERPRISE RISK REGISTER

Section 7 – AI Governance & Recommendation Risk Register

7.1 Purpose

Define risks associated with AI-assisted processing, recommendation generation, explainability, traceability, governance oversight, and replayability across TODP.

7.2 Risk Category

AI Governance Risk

7.3 Risk ID

AI-001

Risk Name

Recommendation Integrity Risk

Description

Recommendations may be generated with insufficient evidence support, reducing trustworthiness and decision quality.

Likelihood

Medium

Impact

Critical

Risk Rating

High

Mitigation Actions

- Evidence validation controls
- Recommendation governance reviews
- Human oversight controls
- Replay validation procedures

Risk Owner

AI Governance Lead

Risk ID

AI-002

Risk Name

Explainability Failure Risk

Description

Recommendations may lack sufficient explanation, reducing transparency and enterprise trust.

Likelihood

Medium

Impact

High

Risk Rating

High

Mitigation Actions

- Explainability governance
- Recommendation review controls
- Traceability validation
- Governance assessments

Risk Owner

Explainability Governance Lead

Risk ID

AI-003

Risk Name

Traceability Breakdown Risk

Description

Incomplete traceability may prevent reconstruction of recommendation decisions.

Likelihood

Low

Impact

Critical

Risk Rating

High

Mitigation Actions

- Traceability monitoring
- Audit validation
- Replay testing
- Governance controls

Risk Owner

Audit Governance Lead

Risk ID

AI-004

Risk Name

Replay Failure Risk

Description

Replay mechanisms may fail to reconstruct historical recommendation decisions.

Likelihood

Low

Impact

High

Risk Rating

Medium

Mitigation Actions

- Replay testing
- Audit validation

- Evidence retention controls
- Governance reviews

Risk Owner

Replay Governance Lead

7.4 Monitoring Requirements

Monthly

AI Governance Risk Review

Quarterly

Responsible AI Assessment

7.5 Metrics

- Explainability Coverage
- Recommendation Governance Compliance
- Replay Success Rate
- Traceability Coverage

7.6 Audit Requirements

Maintain:

- Governance Reviews
- Replay Assessments
- Recommendation Audits
- Validation Reports

7.7 Traceability

RTM References:

- AI-001
- AI-002
- AIGOV-001
- REPLAY-001

7.8 Section Summary

This section documents AI governance risks, recommendation oversight risks, mitigation strategies, monitoring requirements, and governance controls supporting TODP decision integrity.

ENTERPRISE RISK REGISTER

Section 8 – Operational & Service Delivery Risk Register

8.1 Purpose

Define risks associated with daily operations, service delivery, support activities, operational execution, monitoring, and business continuity.

8.2 Risk Category

Operational Risk

8.3 Risk ID

OPS-001

Risk Name

Service Availability Risk

Description

Unexpected outages may affect customer access and business continuity.

Likelihood

Medium

Impact

Critical

Risk Rating

Critical

Mitigation Actions

- High availability architecture
- Monitoring controls
- Disaster recovery planning
- Operational reviews

Risk Owner

Head of Platform Operations

Risk ID

OPS-002

Risk Name

Incident Response Failure Risk

Description

Ineffective incident management may increase customer impact and operational disruption.

Likelihood

Medium

Impact

High

Risk Rating

High

Mitigation Actions

- Incident runbooks
- Escalation procedures
- Training exercises
- Post-incident reviews

Risk Owner

Operations Manager

Risk ID

OPS-003

Risk Name

Monitoring Coverage Risk

Description

Insufficient monitoring may delay detection of operational issues.

Likelihood

Medium

Impact

Medium

Risk Rating

Medium

Mitigation Actions

- Monitoring standards
- Alert validation

- Coverage assessments
- Operational audits

Risk Owner

Site Reliability Engineering Lead

Risk ID

OPS-004

Risk Name

Business Continuity Failure Risk

Description

Inadequate continuity planning may result in prolonged service disruption.

Likelihood

Low

Impact

Critical

Risk Rating

- Transparency
- Accountability
- Traceability
- Continuous Monitoring
- Continuous Improvement

15.5 Enterprise Risk Governance Structure

Executive Leadership Team

Product Governance Board

Compliance & Governance Committee

AI Governance Committee

Platform Operations Committee

Risk Owners

15.6 Enterprise Risk Management Cycle

Identify

→ Assess

→ Prioritize

→ Mitigate

→ Monitor

→ Report

→ Improve

15.7 Escalation Framework

Risk Owner

→ Functional Leader

→ Governance Committee

→ Executive Leadership Team

→ Product Governance Board

15.8 Risk Appetite Governance

Risk appetite shall be reviewed:

- Annually
- Following major business changes
- Following significant incidents

15.9 Enterprise Reporting Requirements

Monthly

Enterprise Risk Dashboard

Quarterly

Executive Risk Review

Annually

Enterprise Risk Effectiveness Assessment

15.10 Risk Maturity Framework

Level 1

Initial

Level 2

Managed

Level 3

Defined

Level 4

Measured

Level 5

Optimized

15.11 Continuous Improvement Requirements

Improvement activities shall include:

- Risk trend analysis
- Governance assessments
- Audit findings review
- Control optimization
- Lessons learned integration

15.12 Enterprise Success Criteria

The risk management program shall demonstrate:

- Effective risk visibility
- Timely risk mitigation
- Strong governance oversight
- Sustainable operational resilience
- Enterprise audit readiness

15.13 Metrics

- Enterprise Risk Exposure Index
- Risk Closure Rate
- High-Risk Reduction Rate
- Risk Governance Effectiveness Score
- Risk Maturity Score

15.14 Audit Requirements

Maintain:

- Enterprise Risk Registers
- Executive Risk Reports
- Governance Reviews
- Maturity Assessments
- Improvement Plans

15.15 Ownership

Primary Owner:

Chief Compliance Officer

Review Authority:

Compliance & Governance Committee
