

PRODUCT GOVERNANCE MODEL

Section 1 – Product Governance Framework

1.1 Purpose

Establish the enterprise governance framework governing strategy, planning, delivery, operation, oversight, and evolution of the Transparent Opportunity Decision Platform (TODP).

1.2 Objectives

- Ensure strategic alignment.
- Enable accountable decision-making.
- Maintain governance oversight.
- Reduce product risk.
- Support enterprise readiness.
- Protect long-term product integrity.

1.3 Scope

Applies to:

- Product strategy
- Product planning
- Product delivery
- Product operations
- Product lifecycle management
- Product investments

- Product governance reviews

Covered TODP Modules

- Opportunity
- Authority
- Evidence
- Retrieval
- Ranking
- Recommendation
- Governance
- Audit
- Replay

1.4 Governance Principles

- Transparency
- Explainability
- Traceability
- Accountability
- Auditability
- Governance by Design
- Continuous Improvement

1.5 Governance Objectives

The governance model shall ensure:

- Product alignment with business goals
- Controlled product evolution
- Risk-aware decision making
- Sustainable product growth
- Enterprise customer trust

1.6 Governance Structure

Product Governance Board

- Executive Leadership Team
- Product Leadership Team
- Product Operations Team
- Engineering Teams

1.7 Governance Responsibilities

Product Governance Board

- Strategic oversight
- Product investment approval
- Risk acceptance
- Governance review

Product Leadership

- Roadmap ownership

- Product prioritization
- Delivery oversight

Engineering Leadership

- Technical execution
- Architecture alignment

Governance Teams

- Compliance monitoring
- Audit support

1.8 Governance Review Areas

- Product strategy
- Product investments
- Product risks
- Delivery performance
- Product quality
- Customer outcomes

1.9 Governance Lifecycle

Strategy

→ Planning

→ Prioritization

→ Delivery

→ Validation

→ Operations

→ Improvement

1.10 Governance Artifacts

- Product roadmap
- Governance decisions
- Investment approvals
- Risk registers
- Review reports

1.11 Review Cadence

Monthly

Product Governance Review

Quarterly

Strategic Product Review

Annually

Product Governance Assessment

1.12 Metrics

- Governance Effectiveness Score
- Product Delivery Success Rate
- Strategic Goal Achievement Rate
- Governance Action Closure Rate

1.13 Audit Requirements

Maintain:

- Governance Minutes
- Approval Records
- Decision Logs
- Review Reports

1.14 Ownership

Primary Owner:

Chief Product Officer

Review Authority:

Product Governance Board

Approval Authority:

Executive Leadership Team

1.15 Traceability

RTM References:

- PGOV-001
- PGOV-002
- GOV-001

1.16 Section Summary

This section establishes the foundational governance framework, governance structure, decision authorities, oversight mechanisms, and accountability requirements governing TODP.

PRODUCT GOVERNANCE MODEL

Section 2 – Product Governance Organization & Decision Authority Model

2.1 Purpose

Define governance roles, organizational structures, accountability assignments, and decision-making authorities supporting TODP product governance.

2.2 Objectives

- Clarify decision ownership.
- Reduce governance ambiguity.

- Improve accountability.
- Support scalable decision-making.
- Enable controlled product growth.

2.3 Governance Principles

- Defined Accountability
- Segregation of Duties
- Escalation Transparency
- Evidence-Based Decisions

2.4 Governance Bodies

Product Governance Board

Architecture Review Board

AI Governance Committee

Compliance & Governance Committee

Platform Operations Committee

2.5 Product Governance Board Responsibilities

- Product strategy approval
- Portfolio governance

- Product investment approval
- Risk oversight
- Executive escalation review

2.6 Architecture Review Board Responsibilities

- Architecture oversight
- Design approvals
- Technical governance

2.7 AI Governance Committee Responsibilities

- Explainability oversight
- AI risk governance
- Recommendation governance
- Replay governance

2.8 Compliance & Governance Committee Responsibilities

- Compliance oversight
- Audit readiness
- Policy governance

2.9 Decision Categories

Category A

Strategic Decisions

Category B

Investment Decisions

Category C

Architecture Decisions

Category D

Operational Decisions

Category E

Compliance Decisions

2.10 Decision Escalation Path

Team

→ Functional Leader

→ Governance Committee

→ Product Governance Board

2.11 Decision Documentation Requirements

Every decision shall maintain:

- Decision ID
- Decision owner
- Business rationale

- Risk assessment
- Approval evidence

2.12 Governance Reviews

Weekly

Operational Governance Review

Monthly

Product Governance Review

Quarterly

Board Review

2.13 Metrics

- Decision Cycle Time
- Escalation Volume
- Governance Completion Rate

2.14 Audit Requirements

Maintain:

- Decision Registers
- Governance Minutes
- Escalation Records

2.15 Ownership

Primary Owner:

Chief Product Officer

Review Authority:

Product Governance Board

2.16 Traceability

RTM References:

- GOV-ORG-001
- GOV-ORG-002
- DEC-001

2.17 Section Summary

This section defines governance organizations, decision rights, escalation mechanisms, accountability structures, and governance review requirements supporting TODP product oversight.

PRODUCT GOVERNANCE MODEL

Section 3 – Product Strategy Governance

3.1 Purpose

Define governance processes governing product vision, strategic planning, market positioning, and long-term product direction.

3.2 Objectives

- Align product strategy with business goals.
- Improve strategic execution.
- Support long-term growth.
- Maintain governance oversight.
- Enable evidence-based planning.

3.3 Scope

Applies to:

- Product vision
- Product strategy
- Market strategy
- Portfolio strategy
- Investment planning

3.4 Strategic Governance Principles

- Strategic Alignment
- Customer-Centric Planning
- Market Awareness
- Measurable Outcomes
- Risk-Aware Growth

3.5 Strategy Lifecycle

Vision Definition

- Market Analysis
- Strategic Planning
- Investment Planning
- Execution
- Measurement

3.6 Strategic Inputs

- Market intelligence
- Customer feedback
- Product analytics
- Competitive analysis
- Governance reviews

3.7 Strategy Governance Reviews

Quarterly

Strategic Product Review

Annually

Product Strategy Assessment

3.8 Product Vision Governance

The product vision shall define:

- Market purpose
- Customer value
- Strategic outcomes
- Competitive positioning

3.9 Strategic Decision Requirements

Strategic decisions shall include:

- Business rationale
- Market justification
- Risk evaluation
- Expected outcomes

3.10 Strategy Reporting

Reports shall include:

- Strategic initiatives
- Outcome progress
- Investment alignment
- Strategic risks

3.11 Metrics

- Strategic Goal Achievement
- Product Growth Rate
- Customer Adoption Growth
- Strategic Initiative Success Rate

3.12 Audit Requirements

Maintain:

- Strategic Plans
- Review Reports
- Investment Decisions
- Strategy Assessments

3.13 Ownership

Primary Owner:

Chief Product Officer

Review Authority:

Product Governance Board

3.14 Traceability

RTM References:

- STRAT-001
- STRAT-002
- PROD-STRAT-001

3.15 Section Summary

This section defines strategic planning governance, vision management processes, strategic review requirements, and decision controls supporting TODP long-term direction.

PRODUCT GOVERNANCE MODEL

Section 4 – Product Portfolio & Investment Governance

4.1 Purpose

Define governance processes governing product investments, initiative prioritization, portfolio management, and value realization oversight.

4.2 Objectives

- Optimize resource allocation.
- Improve investment outcomes.
- Maintain strategic alignment.
- Reduce investment risk.
- Enable portfolio transparency.

4.3 Scope

Applies to:

- Product investments
- Product initiatives
- Strategic programs
- Platform enhancements
- Governance investments

4.4 Portfolio Governance Principles

- Value-Based Investment
- Strategic Alignment
- Risk-Aware Prioritization
- Portfolio Transparency
- Outcome Accountability

4.5 Portfolio Lifecycle

Opportunity Identification

→ Business Case

→ Prioritization

→ Approval

→ Execution

→ Outcome Review

4.6 Investment Categories

Category A

Strategic Investments

Category B

Platform Investments

Category C

Customer Experience Investments

Category D

Governance Investments

Category E

Operational Investments

4.7 Business Case Requirements

Each investment shall include:

- Business objective
- Expected outcomes
- Risk assessment
- Cost estimates
- Success criteria

4.8 Prioritization Criteria

Evaluate:

- Strategic value
- Customer value
- Revenue impact
- Governance impact
- Technical complexity

4.9 Portfolio Reviews

Monthly

Portfolio Status Review

Quarterly

Investment Review

Annually

Portfolio Effectiveness Assessment

4.10 Outcome Governance

Approved initiatives shall maintain:

- Executive sponsor
- Delivery owner
- Success metrics
- Benefit realization plan

4.11 Metrics

- Portfolio Value Realization
- Investment ROI
- Initiative Success Rate
- Strategic Alignment Score

4.12 Audit Requirements

Maintain:

- Business Cases
- Approval Records
- Portfolio Reports

- Outcome Reviews

4.13 Ownership

Primary Owner:

Chief Product Officer

Review Authority:

Product Governance Board

Approval Authority:

Executive Leadership Team

4.14 Traceability

RTM References:

- PORT-001
- PORT-002
- INVEST-001

4.15 Section Summary

This section defines portfolio governance, investment approval controls, prioritization frameworks, outcome measurement requirements, and governance oversight mechanisms supporting TODP product investments.

PRODUCT GOVERNANCE MODEL

Section 5 – Product Roadmap Governance

5.1 Purpose

Define governance processes governing roadmap creation, prioritization, approval, maintenance, and execution oversight for TODP.

5.2 Objectives

- Align roadmap execution with strategy.
- Improve prioritization discipline.
- Maintain governance visibility.
- Support predictable delivery.
- Enable controlled product evolution.

5.3 Scope

Applies to:

- Product roadmaps
- Strategic initiatives
- Feature planning
- Release planning
- Platform investments

5.4 Roadmap Governance Principles

- Strategic Alignment
- Value-Based Prioritization
- Transparency
- Traceability
- Outcome Orientation

5.5 Roadmap Lifecycle

Strategic Input

- Prioritization
- Roadmap Planning
- Governance Review
- Approval
- Execution
- Measurement

5.6 Roadmap Components

Vision Objectives

Strategic Initiatives

Feature Releases

Platform Enhancements

Governance Enhancements

5.7 Roadmap Approval Requirements

Roadmaps shall include:

- Strategic objectives
- Business justification
- Success metrics
- Risk assessment
- Resource requirements

5.8 Change Governance

Roadmap modifications require:

- Impact assessment
- Prioritization review
- Governance approval

5.9 Review Cadence

Monthly

Roadmap Status Review

Quarterly

Strategic Roadmap Assessment

Annually

Roadmap Effectiveness Review

5.10 Stakeholder Participation

- Product Management
- Engineering Leadership
- Governance Teams
- Executive Leadership

5.11 Metrics

- Roadmap Delivery Rate
- Strategic Initiative Completion
- Prioritization Accuracy
- Roadmap Stability Index

5.12 Audit Requirements

Maintain:

- Approved Roadmaps
- Change Records

- Governance Reviews
- Delivery Assessments

5.13 Ownership

Primary Owner:

VP Product Management

Review Authority:

Product Governance Board

5.14 Traceability

RTM References:

- ROAD-001
- ROAD-002
- PLAN-001

5.15 Section Summary

This section defines roadmap governance requirements, approval controls, prioritization standards, change management procedures, and oversight mechanisms supporting TODP delivery planning.

PRODUCT GOVERNANCE MODEL

Section 6 – Requirements Governance & Traceability Management

6.1 Purpose

Define governance controls governing business requirements, product requirements, system requirements, traceability management, and requirement lifecycle oversight.

6.2 Objectives

- Ensure requirement quality.
- Maintain traceability.
- Reduce delivery ambiguity.
- Support auditability.
- Enable governance validation.

6.3 Scope

Applies to:

- Business requirements
- Product requirements
- Functional requirements
- Non-functional requirements
- Governance requirements

6.4 Requirements Governance Principles

- Traceability by Design

- Requirement Accountability
- Controlled Change
- Measurable Validation

6.5 Requirements Lifecycle

Requirement Creation

- Review
- Approval
- Implementation
- Validation
- Closure

6.6 Source Documents

- BRD V1
- PRD V1
- SRS V1
- RTM V1
- API SPEC V1

6.7 Requirement Attributes

Every requirement shall include:

- Requirement ID
- Description

- Owner
- Priority
- Traceability references
- Validation criteria

6.8 Traceability Requirements

Requirements shall trace to:

- Business objectives
- Product capabilities
- Technical implementation
- Test cases
- Governance controls

6.9 Change Governance

Requirement changes require:

- Impact assessment
- Stakeholder review
- Approval workflow
- RTM updates

6.10 Review Requirements

Monthly

Requirements Review

Quarterly

Traceability Assessment

6.11 Metrics

- Traceability Coverage
- Requirement Stability
- Validation Completion Rate
- Requirement Defect Rate

6.12 Audit Requirements

Maintain:

- Requirement Registers
- Traceability Matrices
- Approval Records
- Validation Reports

6.13 Ownership

Primary Owner:

Head of Product Operations

Review Authority:

Product Governance Board

6.14 Traceability

RTM References:

- REQ-001
- REQ-002
- RTM-001

6.15 Section Summary

This section defines requirements governance processes, traceability management standards, lifecycle controls, validation requirements, and audit obligations supporting TODP product delivery.

PRODUCT GOVERNANCE MODEL

Section 7 – Product Change Governance

7.1 Purpose

Define governance processes governing product modifications, feature changes, platform changes, configuration changes, and business-impacting product updates.

7.2 Objectives

- Control product evolution.
- Reduce change-related risk.
- Improve stakeholder visibility.
- Maintain governance compliance.
- Protect platform stability.

7.3 Scope

Applies to:

- Feature changes
- Product enhancements
- Platform modifications
- Governance modifications
- Configuration changes

7.4 Change Governance Principles

- Controlled Evolution
- Risk-Aware Execution
- Stakeholder Transparency
- Traceable Decisions
- Validation Before Release

7.5 Change Lifecycle

Change Request

→ Assessment

→ Prioritization

→ Approval

→ Implementation

→ Validation

→ Closure

7.6 Change Categories

Category A

Strategic Change

Category B

Major Product Change

Category C

Standard Product Change

Category D

Minor Enhancement

Category E

Emergency Change

7.7 Change Assessment Requirements

Evaluate:

- Business impact
- Customer impact
- Technical impact
- Governance impact
- Risk profile

7.8 Approval Requirements

Approvals shall include:

- Product approval
- Engineering approval
- Governance approval when applicable

7.9 Validation Requirements

Validate:

- Functional outcomes
- Performance impacts
- Security implications
- Governance compliance

7.10 Review Cadence

Weekly

Change Review Board

Monthly

Change Effectiveness Review

7.11 Metrics

- Change Success Rate
- Change Failure Rate
- Emergency Change Volume
- Validation Success Rate

7.12 Audit Requirements

Maintain:

- Change Requests
- Impact Assessments
- Approval Records
- Validation Reports

7.13 Ownership

Primary Owner:

Head of Product Operations

Review Authority:

Product Governance Board

7.14 Traceability

RTM References:

- CHG-001
- CHG-002
- REL-001

7.15 Section Summary

This section defines product change governance controls, assessment procedures, approval requirements, validation standards, and oversight mechanisms supporting TODP product evolution.

PRODUCT GOVERNANCE MODEL

Section 8 – Product Release Governance

8.1 Purpose

Define governance requirements governing release planning, release approval, deployment readiness, production release validation, and release accountability.

8.2 Objectives

- Ensure release quality.
- Reduce deployment risk.
- Maintain governance oversight.
- Support operational readiness.
- Improve release predictability.

8.3 Scope

Applies to:

- Product releases
- Platform releases
- Security releases
- Governance releases
- Emergency releases

8.4 Release Governance Principles

- Release Readiness
- Quality Assurance
- Operational Preparedness
- Controlled Deployment
- Evidence-Based Approval

8.5 Release Lifecycle

Planning

→ Development

→ Testing

→ Readiness Review

→ Approval

→ Deployment

→ Validation

8.6 Release Approval Requirements

Releases shall include:

- Testing evidence
- Risk assessment
- Rollback plan
- Deployment plan
- Operational readiness confirmation

8.7 Release Readiness Reviews

Validate:

- Functional readiness
- Security readiness

- Performance readiness
- Governance readiness

8.8 Governance Participants

Product Management

Engineering Leadership

Operations Leadership

Security Leadership

Governance Teams

8.9 Release Reporting

Weekly

Release Status Review

Monthly

Release Performance Review

8.10 Alignment Requirements

Release governance shall align with:

- OPS RUNBOOK V1
- DEPLOYMENT GUIDE V1
- TEST SPEC V1

8.11 Metrics

- Release Success Rate
- Deployment Failure Rate
- Rollback Rate
- Release Predictability

8.12 Audit Requirements

Maintain:

- Release Records
- Approval Evidence
- Validation Reports
- Readiness Assessments

8.13 Ownership

Primary Owner:

Head of Product Delivery

Review Authority:

Product Governance Board

8.14 Traceability

RTM References:

- REL-001
- REL-002
- DEP-001

8.15 Section Summary

This section defines release governance controls, approval standards, readiness assessment procedures, validation requirements, and audit obligations supporting TODP release management.

PRODUCT GOVERNANCE MODEL

Section 9 – Product Risk Governance

9.1 Purpose

Define governance processes governing identification, assessment, mitigation, monitoring, and reporting of product-related risks across TODP.

9.2 Objectives

- Reduce product risk exposure.

- Improve decision quality.
- Enable proactive risk management.
- Support governance oversight.
- Protect business outcomes.

9.3 Scope

Applies to:

- Strategic product risks
- Delivery risks
- Operational risks
- Governance risks
- Customer risks
- Technology risks

9.4 Risk Governance Principles

- Risk Visibility
- Proactive Mitigation
- Accountability
- Continuous Monitoring
- Evidence-Based Decisions

9.5 Risk Management Lifecycle

Identification

- Assessment
- Prioritization
- Treatment
- Monitoring
- Closure

9.6 Product Risk Categories

Category A

Strategic Risk

Category B

Delivery Risk

Category C

Operational Risk

Category D

Governance Risk

Category E

Customer Risk

Category F

Technology Risk

9.7 Risk Assessment Criteria

Evaluate:

- Likelihood
- Impact
- Customer Exposure
- Governance Exposure
- Strategic Consequences

9.8 Risk Treatment Options

- Mitigate
- Transfer
- Accept
- Avoid

9.9 Escalation Requirements

Escalate risks when:

- Strategic objectives are threatened
- Customer impact is significant
- Governance obligations are affected
- Risk tolerance is exceeded

9.10 Risk Reporting

Monthly

Product Risk Review

Quarterly

Executive Risk Assessment

Annually

Product Risk Effectiveness Assessment

9.11 Metrics

- Open Product Risks
- High-Risk Items
- Risk Closure Rate
- Risk Mitigation Success Rate

9.12 Audit Requirements

Maintain:

- Product Risk Registers
- Risk Assessments
- Treatment Plans
- Review Records

9.13 Ownership

Primary Owner:

Head of Product Governance

Review Authority:

Product Governance Board

Approval Authority:

Executive Leadership Team

9.14 Traceability

RTM References:

- PRISK-001
- PRISK-002
- RISK-001

9.15 Section Summary

This section defines product risk governance processes, risk assessment methodologies, treatment controls, reporting obligations, and audit requirements supporting TODP product oversight.

PRODUCT GOVERNANCE MODEL

Section 10 – Product Quality Governance

10.1 Purpose

Define governance requirements governing product quality standards, validation controls, quality assurance activities, and continuous quality improvement.

10.2 Objectives

- Ensure product reliability.
- Improve customer trust.
- Reduce production defects.
- Support enterprise readiness.
- Maintain delivery quality.

10.3 Scope

Applies to:

- Functional quality
- Non-functional quality
- User experience quality
- Security quality
- Governance quality
- Operational quality

10.4 Quality Governance Principles

- Quality by Design
- Validation Before Release
- Continuous Measurement
- Defect Prevention
- Accountability

10.5 Quality Lifecycle

Requirements

- Design
- Development
- Testing
- Validation
- Release
- Monitoring

10.6 Quality Domains

Domain A

Functional Quality

Domain B

Performance Quality

Domain C

Security Quality

Domain D

Governance Quality

Domain E

Operational Quality

10.7 Quality Gates

Gate 1

Requirements Validation

Gate 2

Design Validation

Gate 3

Testing Validation

Gate 4

Release Readiness Validation

Gate 5

Post-Release Validation

10.8 Quality Review Requirements

Weekly

Quality Review

Monthly

Product Quality Assessment

Quarterly

Quality Governance Review

10.9 Quality Reporting

Reports shall include:

- Defect trends
- Quality metrics
- Validation coverage
- Quality risks

10.10 Alignment Requirements

Quality governance shall align with:

- TEST SPEC V1
- SRS V1
- RTM V1

10.11 Metrics

- Defect Density
- Test Coverage
- Production Defect Rate
- Quality Validation Rate

10.12 Audit Requirements

Maintain:

- Quality Reports
- Validation Records
- Test Results
- Defect Reviews

10.13 Ownership

Primary Owner:

Head of Quality Engineering

Review Authority:

Product Governance Board

10.14 Traceability

RTM References:

- QUAL-001
- QUAL-002
- TEST-001

10.15 Section Summary

This section defines product quality governance processes, validation requirements, quality review standards, reporting controls, and audit obligations supporting TODP quality assurance.

PRODUCT GOVERNANCE MODEL

Section 11 – Product Security Governance

11.1 Purpose

Define governance requirements governing product security strategy, security controls, security validation, and security oversight across TODP.

11.2 Objectives

- Protect platform assets.
- Reduce security risk.
- Maintain enterprise trust.
- Support compliance readiness.

- Ensure secure product delivery.

11.3 Scope

Applies to:

- Application security
- Infrastructure security
- Access management
- Data protection
- Security monitoring
- Security validation

11.4 Security Governance Principles

- Security by Design
- Least Privilege
- Defense in Depth
- Continuous Validation
- Accountability

11.5 Security Governance Lifecycle

Security Planning

→ Security Review

→ Security Validation

→ Deployment

→ Monitoring

→ Improvement

11.6 Security Oversight Structure

Chief Information Security Officer

Security Architecture Team

Security Operations Team

Product Governance Board

11.7 Security Review Requirements

Validate:

- Security controls
- Access controls
- Encryption controls
- Monitoring controls
- Incident readiness

11.8 Security Approval Requirements

High-risk product releases require:

- Security review
- Risk assessment
- Approval evidence

11.9 Security Reporting

Monthly

Security Governance Review

Quarterly

Security Posture Assessment

Annually

Security Effectiveness Assessment

11.10 Alignment Requirements

Security governance shall align with:

- SECURITY ARCHITECTURE V1
- COMPLIANCE PACKAGE V1
- OPS RUNBOOK V1

11.11 Metrics

- Security Findings
- Vulnerability Closure Rate
- Security Review Completion Rate
- Security Incident Volume

11.12 Audit Requirements

Maintain:

- Security Assessments
- Review Records
- Approval Records
- Security Reports

11.13 Ownership

Primary Owner:

Chief Information Security Officer

Review Authority:

Product Governance Board

11.14 Traceability

RTM References:

- SEC-PROD-001
- SEC-PROD-002
- SEC-001

11.15 Section Summary

This section defines product security governance structures, review procedures, validation requirements, reporting obligations, and audit controls supporting TODP security assurance.

PRODUCT GOVERNANCE MODEL

Section 12 – Product Data Governance

12.1 Purpose

Define governance requirements governing product-related information assets, data lifecycle management, ownership accountability, and information quality.

12.2 Objectives

- Protect product information.
- Improve data quality.
- Maintain ownership accountability.
- Support regulatory readiness.
- Enable trusted operations.

12.3 Scope

Applies to:

- Opportunity data
- Authority data
- Evidence data
- Retrieval data
- Ranking data
- Recommendation data
- Audit data
- Replay data

12.4 Data Governance Principles

- Data Ownership
- Data Integrity
- Controlled Access
- Lifecycle Governance
- Accountability

12.5 Data Governance Lifecycle

Creation

→ Classification

→ Storage

→ Usage

→ Retention

→ Disposal

12.6 Governance Roles

Data Owners

Data Stewards

Data Custodians

Governance Team

12.7 Data Ownership Requirements

All critical product data shall maintain:

- Owner assignment
- Classification level
- Retention requirements
- Access controls

12.8 Data Quality Governance

Review:

- Accuracy

- Completeness
- Consistency
- Timeliness

12.9 Governance Reviews

Monthly

Data Governance Review

Quarterly

Data Quality Assessment

Annually

Data Governance Effectiveness Assessment

12.10 Alignment Requirements

Data governance shall align with:

- DATA GOVERNANCE V1
- COMPLIANCE PACKAGE V1
- SECURITY ARCHITECTURE V1

12.11 Metrics

- Data Quality Score
- Data Governance Compliance Rate
- Access Review Completion Rate
- Data Issue Resolution Rate

12.12 Audit Requirements

Maintain:

- Data Inventories
- Access Reviews
- Data Quality Reports
- Governance Assessments

12.13 Ownership

Primary Owner:

Head of Data Governance

Review Authority:

Product Governance Board

12.14 Traceability

RTM References:

- DATA-PROD-001
- DATA-PROD-002
- DG-001

12.15 Section Summary

This section defines product data governance controls, ownership requirements, lifecycle management standards, quality governance processes, and audit obligations supporting TODP information stewardship.

PRODUCT GOVERNANCE MODEL

Section 13 – AI Governance & Recommendation Oversight

13.1 Purpose

Define governance requirements governing AI-assisted processing, retrieval operations, ranking logic, recommendation generation, explainability controls, and decision oversight within TODP.

13.2 Objectives

- Ensure responsible AI operation.
- Maintain recommendation transparency.
- Support governance oversight.
- Protect decision integrity.
- Enable enterprise trust.

13.3 Scope

Applies to:

- Retrieval Module
- Ranking Module
- Recommendation Module
- Governance Module
- Audit Module
- Replay Module

13.4 Governance Principles

- Transparency
- Explainability
- Traceability
- Human Oversight
- Auditability
- Accountability

13.5 TODP Decision Chain Governance

Opportunity

→ Authority

→ Evidence

→ Retrieval

→ Ranking

→ Recommendation

→ Governance Review

→ Audit

→ Replay

13.6 Governance Requirements

All recommendations shall support:

- Evidence traceability
- Authority verification
- Retrieval transparency
- Ranking visibility
- Recommendation explainability

13.7 Human Oversight Requirements

Human review shall remain available for:

- High-risk recommendations
- Governance escalations
- Compliance reviews
- Executive review requests

13.8 Explainability Requirements

The platform shall maintain visibility into:

- Evidence utilized
- Retrieval pathways

- Ranking rationale
- Recommendation rationale
- Governance outcomes

13.9 Governance Reviews

Monthly

Recommendation Governance Review

Quarterly

AI Governance Assessment

Annually

Responsible AI Assessment

13.10 Risk Monitoring

Monitor:

- Recommendation anomalies
- Explainability gaps
- Governance failures
- Traceability issues

13.11 Metrics

- Explainability Coverage
- Recommendation Governance Compliance
- Replay Success Rate
- Governance Escalation Rate

13.12 Audit Requirements

Maintain:

- Governance Reviews
- Recommendation Assessments
- Replay Evidence
- Validation Reports

13.13 Ownership

Primary Owner:

AI Governance Lead

Review Authority:

AI Governance Committee

Approval Authority:

Product Governance Board

13.14 Traceability

RTM References:

- AIGOV-001
- AIGOV-002
- REC-001
- REPLAY-001

13.15 Section Summary

This section defines AI governance controls, recommendation oversight requirements, explainability standards, human review mechanisms, and audit obligations supporting TODP decision transparency.

PRODUCT GOVERNANCE MODEL

Section 14 – Product Operations Governance

14.1 Purpose

Define governance requirements governing day-to-day product operations, operational controls, service management activities, and operational accountability.

14.2 Objectives

- Maintain operational stability.

- Improve execution consistency.
- Support governance compliance.
- Ensure service reliability.
- Enable operational transparency.

14.3 Scope

Applies to:

- Product operations
- Platform operations
- Service management
- Release operations
- Incident operations
- Support coordination

14.4 Operational Governance Principles

- Operational Accountability
- Service Reliability
- Controlled Execution
- Continuous Monitoring
- Evidence Preservation

14.5 Operational Governance Domains

Domain A

Service Management

Domain B

Incident Management

Domain C

Change Management

Domain D

Release Operations

Domain E

Operational Reporting

14.6 Operational Review Structure

Daily

Operations Review

Weekly

Operational Governance Review

Monthly

Service Performance Assessment

14.7 Governance Controls

Controls shall verify:

- Process adherence
- SLA compliance
- Operational readiness
- Escalation effectiveness
- Evidence availability

14.8 Service Health Governance

Monitor:

- Availability
- Performance
- Reliability
- Incident trends
- Operational risks

14.9 Escalation Governance

Escalations shall maintain:

- Ownership
- Decision accountability

- Resolution evidence
- Closure validation

14.10 Alignment Requirements

Operational governance shall align with:

- OPS RUNBOOK V1
- SUPPORT MODEL V1
- DEPLOYMENT GUIDE V1

14.11 Metrics

- Service Availability
- Incident Volume
- SLA Compliance
- Operational Effectiveness Score

14.12 Audit Requirements

Maintain:

- Operational Reports
- Incident Reviews
- Governance Reviews
- Service Assessments

14.13 Ownership

Primary Owner:

Head of Product Operations

Review Authority:

Platform Operations Committee

Approval Authority:

Product Governance Board

14.14 Traceability

RTM References:

- OPS-PROD-001
- OPS-PROD-002
- OPS-001
- SLA-001

14.15 Section Summary

This section defines product operational governance controls, service oversight requirements, operational review structures, and audit obligations supporting TODP operational excellence.

PRODUCT GOVERNANCE MODEL

Section 15 – Customer Value, Adoption & Outcome Governance

15.1 Purpose

Define governance requirements ensuring TODP delivers measurable customer value, sustained adoption, business outcomes, and long-term customer success.

15.2 Objectives

- Maximize customer value realization.
- Improve adoption outcomes.
- Strengthen retention.
- Support product-market alignment.
- Enable evidence-based product decisions.

15.3 Scope

Applies to:

- Customer onboarding
- Customer adoption
- Feature utilization
- Customer retention
- Outcome measurement
- Expansion planning

15.4 Governance Principles

- Customer Outcome Focus
- Evidence-Based Evaluation
- Continuous Measurement
- Accountability
- Value Realization

15.5 Customer Value Lifecycle

Onboarding

→ Adoption

→ Utilization

→ Outcome Achievement

→ Renewal

→ Expansion

15.6 Governance Reviews

Monthly

Customer Value Review

Quarterly

Customer Outcome Assessment

Annually

Product Value Realization Assessment

15.7 Adoption Governance

Evaluate:

- Active usage
- Feature utilization
- Customer engagement
- Adoption trends

15.8 Outcome Governance

Measure:

- Customer objectives
- Business outcomes
- Operational improvements
- Governance benefits

15.9 Customer Feedback Governance

Inputs include:

- Support feedback
- Customer success reviews

- Product feedback
- Governance feedback

15.10 Executive Oversight

Executive Leadership shall review:

- Customer retention
- Adoption performance
- Outcome realization
- Strategic customer risks

15.11 Metrics

- Customer Retention Rate
- Feature Adoption Rate
- Customer Health Score
- Net Revenue Retention

15.12 Audit Requirements

Maintain:

- Customer Reviews
- Adoption Reports
- Outcome Assessments
- Feedback Registers

15.13 Ownership

Primary Owner:

Chief Customer Officer

Review Authority:

Product Governance Board

Approval Authority:

Executive Leadership Team

15.14 Traceability

RTM References:

- CUST-001
- CUST-002
- ADOPT-001
- RET-001

15.15 Section Summary

This section defines customer value governance controls, adoption oversight mechanisms, outcome measurement requirements, and audit obligations supporting TODP customer success.

PRODUCT GOVERNANCE MODEL

Section 16 – Product Compliance & Audit Governance

16.1 Purpose

Define governance requirements governing product compliance management, audit readiness, control validation, regulatory alignment, and assurance activities.

16.2 Objectives

- Maintain compliance readiness.
- Support audit success.
- Improve governance assurance.
- Reduce compliance exposure.
- Demonstrate enterprise maturity.

16.3 Scope

Applies to:

- Product governance controls
- Product operations
- Security controls
- Data governance controls
- AI governance controls
- Customer assurance activities

16.4 Governance Principles

- Continuous Readiness
- Evidence-Based Compliance
- Traceability
- Accountability
- Independent Validation

16.5 Compliance Governance Lifecycle

Control Definition

→ Implementation

→ Monitoring

→ Assessment

→ Remediation

→ Validation

16.6 Compliance Review Structure

Monthly

Compliance Review

Quarterly

Audit Readiness Review

Annually

Product Compliance Assessment

16.7 Control Validation Requirements

Validate:

- Control design effectiveness
- Operating effectiveness
- Evidence availability
- Traceability coverage

16.8 Audit Readiness Requirements

Maintain:

- Governance documentation
- Product records
- Approval records
- Assessment reports
- Evidence repositories

16.9 Customer Assurance Support

Provide:

- Governance documentation
- Security documentation
- Compliance evidence
- Assessment responses

16.10 Alignment Requirements

Compliance governance shall align with:

- COMPLIANCE PACKAGE V1
- SECURITY ARCHITECTURE V1
- DATA GOVERNANCE V1
- AI GOVERNANCE FRAMEWORK

16.11 Metrics

- Audit Readiness Score
- Compliance Rate
- Open Findings
- Remediation Completion Rate

16.12 Audit Requirements

Maintain:

- Audit Packages
- Compliance Reports

- Assessment Records
- Remediation Plans

16.13 Ownership

Primary Owner:

Chief Compliance Officer

Review Authority:

Compliance & Governance Committee

Approval Authority:

Product Governance Board

16.14 Traceability

RTM References:

- COMP-PROD-001
- COMP-PROD-002
- AUD-001
- CTRL-001

16.15 Section Summary

This section defines product compliance governance controls, audit readiness requirements, assurance mechanisms, validation standards, and audit obligations supporting TODP enterprise readiness.

PRODUCT GOVERNANCE MODEL

Section 17 – Product Performance Governance & KPI Management

17.1 Purpose

Define governance requirements governing product performance measurement, KPI management, outcome tracking, executive reporting, and operational accountability across TODP.

17.2 Objectives

- Improve product visibility.
- Enable data-driven decisions.
- Measure strategic outcomes.
- Strengthen accountability.
- Support continuous optimization.

17.3 Scope

Applies to:

- Product performance
- Customer outcomes
- Operational performance
- Governance performance
- Platform performance
- Strategic initiatives

17.4 Governance Principles

- Measurement Transparency
- Accountability
- Outcome Orientation
- Continuous Evaluation
- Evidence-Based Decisions

17.5 Performance Governance Lifecycle

Objective Definition

→ KPI Selection

→ Measurement

→ Reporting

→ Review

→ Improvement

17.6 KPI Domains

Domain A

Business Performance

Domain B

Customer Performance

Domain C

Product Performance

Domain D

Operational Performance

Domain E

Governance Performance

17.7 Product Dashboard Requirements

Track:

- Customer adoption
- Product usage
- Service availability
- Delivery performance
- Governance compliance
- Strategic initiative progress

17.8 Reporting Structure

Operational Reports

Management Reports

Executive Reports

Board Reports

17.9 Review Cadence

Monthly

Product Performance Review

Quarterly

Executive Product Review

Annually

Product Effectiveness Assessment

17.10 Governance Actions

Performance reviews shall identify:

- Improvement opportunities
- Risk indicators
- Strategic adjustments
- Resource requirements

17.11 Metrics

- Product Adoption Rate

- Feature Utilization Rate
- Strategic Goal Achievement Rate
- Product Health Index
- Governance Compliance Score

17.12 Audit Requirements

Maintain:

- KPI Reports
- Performance Dashboards
- Executive Reviews
- Improvement Plans

17.13 Ownership

Primary Owner:

Chief Product Officer

Review Authority:

Product Governance Board

Approval Authority:

Executive Leadership Team

17.14 Traceability

RTM References:

- KPI-PROD-001
- KPI-PROD-002
- PERF-001
- EXEC-001

17.15 Section Summary

This section defines product performance governance controls, KPI management frameworks, reporting structures, executive review requirements, and accountability mechanisms supporting TODP product management.

PRODUCT GOVERNANCE MODEL

Section 18 – Product Lifecycle Management Governance

18.1 Purpose

Define governance requirements governing the complete lifecycle of TODP capabilities from concept through retirement.

18.2 Objectives

- Ensure controlled product evolution.
- Maintain lifecycle accountability.
- Reduce unmanaged complexity.

- Support sustainable platform growth.
- Improve long-term product value.

18.3 Scope

Applies to:

- Features
- Capabilities
- Modules
- Services
- Product components
- Platform functionality

18.4 Governance Principles

- Lifecycle Accountability
- Strategic Alignment
- Controlled Evolution
- Continuous Evaluation
- Value Realization

18.5 Lifecycle Stages

Concept

→ Evaluation

→ Planning

→ Development

→ Release

→ Adoption

→ Optimization

→ Retirement

18.6 Lifecycle Governance Requirements

Each lifecycle stage shall maintain:

- Defined owner
- Approval criteria
- Success measures
- Review requirements

18.7 Capability Retirement Governance

Retirement decisions shall include:

- Customer impact assessment
- Dependency assessment
- Risk evaluation
- Communication plan

18.8 Lifecycle Reviews

Quarterly

Lifecycle Portfolio Review

Annually

Lifecycle Effectiveness Assessment

18.9 Governance Controls

Validate:

- Strategic alignment
- Customer value
- Operational viability
- Governance compliance

18.10 Lifecycle Reporting

Reports shall include:

- Capability status
- Adoption trends
- Retirement candidates
- Investment effectiveness

18.11 Metrics

- Lifecycle Progression Rate
- Capability Adoption Rate
- Retirement Success Rate
- Lifecycle Governance Compliance

18.12 Audit Requirements

Maintain:

- Lifecycle Registers
- Approval Records
- Retirement Plans
- Assessment Reports

18.13 Ownership

Primary Owner:

VP Product Management

Review Authority:

Product Governance Board

18.14 Traceability

RTM References:

- LIFE-001

- LIFE-002
- PROD-001
- CAP-001

18.15 Section Summary

This section defines product lifecycle governance controls, stage-gate requirements, retirement governance procedures, and lifecycle measurement standards supporting TODP evolution.

PRODUCT GOVERNANCE MODEL

Section 19 – Product Continuous Improvement & Governance Maturity

19.1 Purpose

Define governance requirements governing continuous product improvement, governance optimization, maturity advancement, and organizational learning.

19.2 Objectives

- Improve governance effectiveness.
- Increase product maturity.
- Strengthen decision quality.
- Enhance operational efficiency.
- Support sustainable growth.

19.3 Scope

Applies to:

- Governance processes
- Product operations
- Delivery processes
- Customer processes
- Compliance processes
- AI governance processes

19.4 Improvement Principles

- Continuous Learning
- Data-Driven Improvement
- Measurable Outcomes
- Governance Accountability
- Sustainable Change

19.5 Improvement Lifecycle

Observation

→ Assessment

→ Prioritization

→ Planning

→ Implementation

→ Validation

→ Closure

19.6 Improvement Sources

- Customer feedback
- Product analytics
- Governance reviews
- Audit findings
- Risk assessments
- Operational metrics

19.7 Governance Maturity Framework

Domain A

Strategy Governance

Domain B

Delivery Governance

Domain C

Operational Governance

Domain D

Compliance Governance

Domain E

AI Governance

19.8 Maturity Levels

Level 1

Initial

Level 2

Managed

Level 3

Defined

Level 4

Measured

Level 5

Optimized

19.9 Review Cadence

Quarterly

Governance Improvement Review

Annually

Governance Maturity Assessment

19.10 Improvement Validation

Validate:

- Risk reduction
- Process effectiveness
- Governance effectiveness
- Customer impact

19.11 Metrics

- Governance Maturity Score
- Improvement Completion Rate
- Governance Effectiveness Score
- Audit Finding Reduction Rate

19.12 Audit Requirements

Maintain:

- Improvement Registers
- Maturity Assessments
- Governance Reviews
- Validation Reports

19.13 Ownership

Primary Owner:

Head of Product Governance

Review Authority:

Product Governance Board

Approval Authority:

Executive Leadership Team

19.14 Traceability

RTM References:

- IMP-PROD-001
- IMP-PROD-002
- MAT-001
- GOV-001

19.15 Section Summary

This section defines continuous improvement governance processes, maturity assessment methodologies, optimization controls, and measurement standards supporting TODP governance excellence.

PRODUCT GOVERNANCE MODEL

Section 20 – Product Governance Operating Model & Enterprise Oversight

20.1 Purpose

Establish the enterprise operating model governing how product governance activities are executed, monitored, measured, reviewed, and continuously improved across TODP.

20.2 Objectives

- Maintain governance consistency.
- Enable enterprise-scale oversight.
- Improve strategic alignment.
- Support accountable execution.
- Ensure sustainable governance maturity.

20.3 Scope

Applies to:

- Product governance
- Portfolio governance
- Risk governance
- Compliance governance
- AI governance
- Operational governance

20.4 Governance Principles

- Accountability
- Transparency
- Traceability
- Auditability
- Continuous Improvement

20.5 Governance Operating Structure

Executive Leadership Team

Product Governance Board

Architecture Review Board

AI Governance Committee

Compliance & Governance Committee

Platform Operations Committee

20.6 Core Governance Processes

Strategy Governance

Portfolio Governance

Roadmap Governance

Risk Governance

Quality Governance

Compliance Governance

AI Governance

20.7 Governance Management Cycle

Plan

→ Govern

→ Measure

→ Review

→ Improve

20.8 Enterprise Oversight Responsibilities

Executive Leadership Team shall oversee:

- Strategic alignment
- Product investments
- Governance effectiveness
- Enterprise risks
- Product performance

20.9 Governance Review Requirements

Monthly

Product Governance Review

Quarterly

Enterprise Governance Review

Annually

Product Governance Effectiveness Assessment

20.10 Success Criteria

The governance model shall demonstrate:

- Strategic alignment
- Delivery accountability
- Risk management effectiveness
- Compliance readiness
- Customer value realization

20.11 Executive Reporting Requirements

Reports shall include:

- Product health
- Governance performance
- Risk posture
- Compliance posture
- Strategic initiative progress

20.12 Metrics

- Governance Effectiveness Score
- Strategic Alignment Index
- Governance Action Closure Rate
- Enterprise Product Health Score

20.13 Audit Requirements

Maintain:

- Governance Dashboards
- Executive Reports
- Governance Reviews
- Improvement Plans

20.14 Ownership

Primary Owner:

Chief Product Officer

Review Authority:

Executive Leadership Team

Approval Authority:

Product Governance Board

20.15 Traceability

RTM References:

- GOV-MODEL-001
- GOV-MODEL-002
- EXEC-002
- BOARD-001

20.16 Section Summary

This section establishes the enterprise governance operating model, oversight framework, governance management cycle, executive accountability requirements, and continuous improvement mechanisms governing TODP product management.
